

# Conclusion of first day

Wolfgang Braunstein

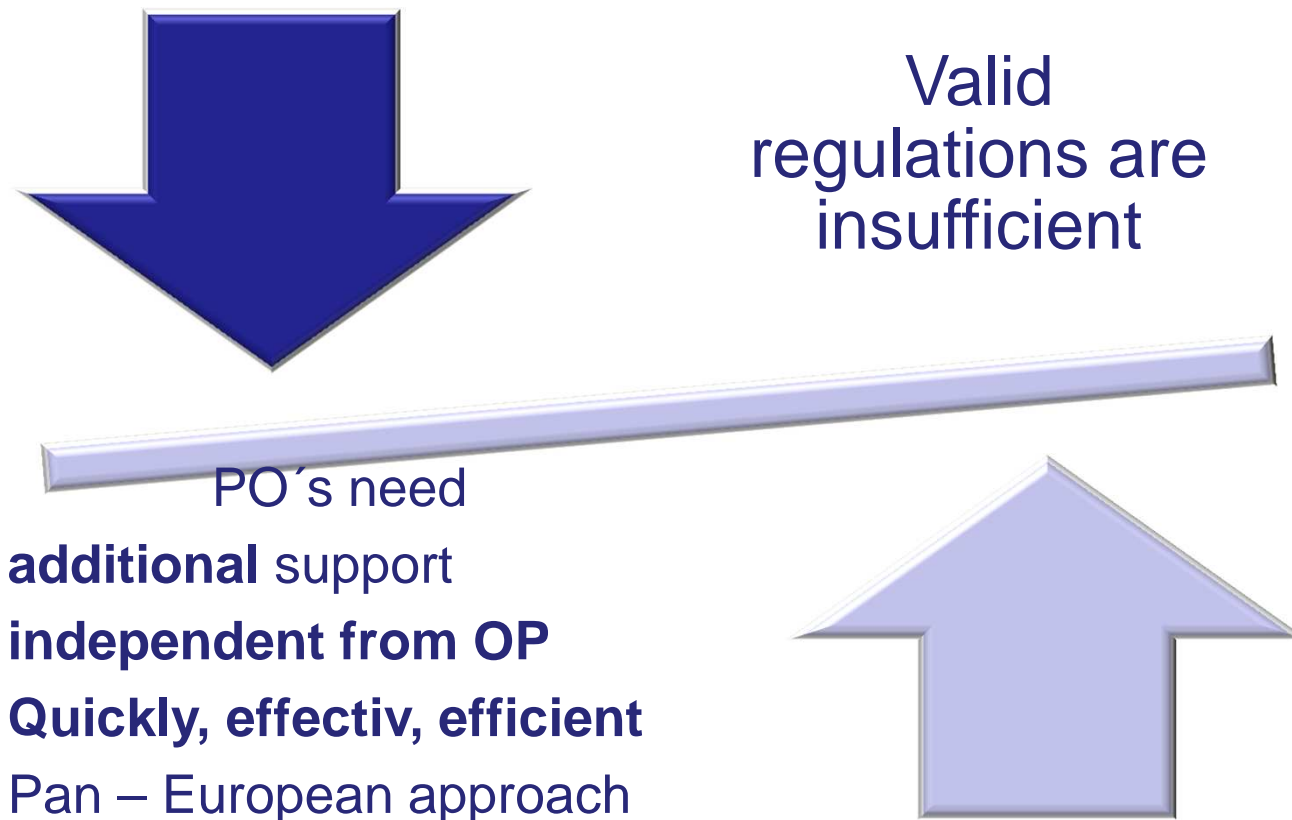

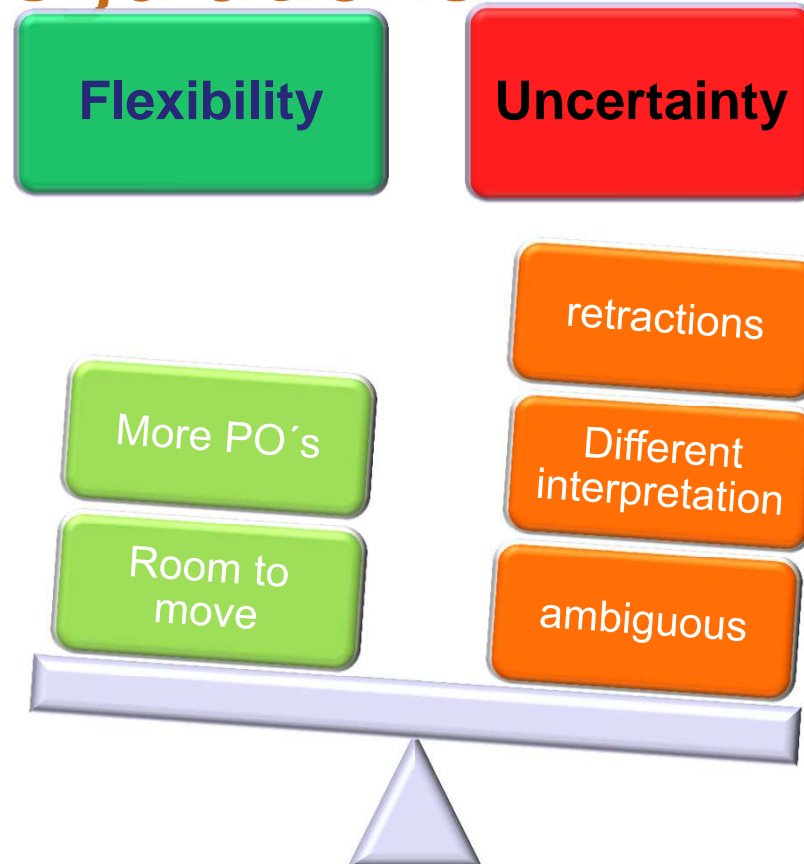

PO and APO are profound instruments to handle issues of the sector

- Success- and demand oriented to guarantee sustainable development for members
- Still big differences in organisation structure and way of working
- It's a role model for other sectors too

# PO s are efficient in management of crises

# PO s and APO s struggle with current regulations

Lets keep the CMO as a strong and specific instrument within the CAP by using a pan – European approach

# What do we need!

## Legal certainty Within CMO

**Unambiguous  
rules**

**Harmonized  
within commission  
with memberstates**

## Additional support in case of crises

**Independent to  
Operational  
Programs**

**effective  
efficient  
quick**

## Adaption of rules of competition

Recognized PO's  
and APO's should  
be allowed to  
**speak with each  
other and to define  
common  
measures**
